

Name: _____ Period: _____ Date: _____

DISORDER OF THE PNS

For each of these diseases, your group needs to write out the cause if known, symptoms and possible therapies. Draw a diagram of the actual point where homeostasis breaks down. For example, if the body has malfunctioning Ach receptors draw the synapse and what happens in the disease. Choose the disease your group found the most interesting or challenging and make some type of prop. Claymation that you video record, a play you act out and record ... Post on Utube.

Symptoms	Cause or transmission	Breakdown in homeostasis	Therapies, treatments, prevention
multiple sclerosis			
shingles			
polio			

autonomic dysreflexia			
Horner's Syndrome			
Raynaud's syndrome
