

# Law of Thermodynamics Activity

EN: \_\_\_\_\_

Your team must come up with at least four energy transfers and explain how the laws of thermodynamics are being followed. Only one type of transfer may be used twice, all other transformations must be only used once. All forms of energy must be identified in some manner. Your team has the following options to complete the assignment.

1. Make a cartoon
2. Perform a skit. Can be taped on phone and emailed to me.  
mchamberlain@piedmont.k12.a.us
3. Make a TV add/commercial : Can be taped on phone and emailed to me.  
mchamberlain@piedmont.k12.a.us

Extra credit for more energy transfers and/or creativity.

Write your notes and brainstorm ideas : on your sketch label the energy transformations.
